

# Schaffers built with serious Muscle Power

Schaffer Loaders proudly offer WALGA Members the best in German-engineered loaders and mini loaders backed by Australian service.

After years of being put through their paces in Local Government, Schaffer articulated loaders have emerged powerful performers.

Yet despite their nimble performance on the job, German-engineered Schaffers are distinguished by their robust heavy-duty industrial build. And for sheer grunt, Schaffers are unsurpassed!

Add excellent green credentials and fuel economy, together with OH&S-friendly features, and Schaffer ticks all the boxes. "Our Schaffer mini diggers are not only bulletproof, they're also clean, green and save us money on fuel, on average only 3.5 litres an hour in diesel," says Mark Briggs, Fleet Co-ordinator, City of Swan.

WALGA Members enjoy a high level of personal service. For sales and local spare parts back-up the WA dealers are Boya Equipment, Wangara and Forkwest, Bunbury and Schaffer Loaders head office is in Perth.

Schaffers are available in sizes from 26hp up to 130hp, with the most popular model for Local Governments being the hardtop version of the 3450. This loader is unrivalled by the weight it can pick up relative to its compact size.

With hydraulic quick attach the 3450s can wield almost any labour-saving attachment. Armed with a grab bucket they can scoop up green refuse or white goods from verges where they don't dig up the ground, upload logs into a chipper, quick smart or load council trucks in the depot with loose material.

TEC SPEC: Diesel Engine Kubota 4 cylinder – 50hp. Auxiliary hydraulic flow – 60 litres/minute at 2900psi. Total width – 1400mm. Bucket pivot point – 2500mm, ROPS/FOPS aircon cabin.

## Professional Development Opportunities

### Procurement Training for Local Government Officers

Over two days participants will gain a clear understanding of how to operate within the legislative and policy framework of procurement in WA Local Government, and how to properly utilise the best practice tools and templates within WALGA's Procurement Handbook. Participants will leave the course better equipped to implement effective procurement practices and to ensure probity, transparency and good governance of these functions within their Local Governments.

Date: Monday and Tuesday, 24 –25 February

Time: 9.00am - 4.30pm

Cost: \$1200 (+GST)

Venue: WALGA Boardroom

Date: Wednesday and Thursday, 26 – 27 February

Time: 9.00am - 4.30pm

Cost: \$1200 (+GST)

Venue: TBA

### Procurement for Elected Members

Procurement training for Elected Members is an introductory course in procurement for Local Government Elected Members, designed specifically for Members to understand their role in procurement within their local government. The course will provide participants with a practical working knowledge of procurement and governance, and best practice procurement to support the Elected Member role of establishing and maintaining the purchasing policy of the organisation.

Date: Wednesday, 26 February

Time: 9.00am - 4.30pm

Cost: \$495 (+GST)

Venue: WALGA Boardroom

### Contract Management for Local Government Officers

WALGA is pleased to offer a 2-day training program designed to assist Local Governments and Contract Managers raise the bar in improving all aspects of their contract management performance. Contract Management for Local Government tailors modern leading contract management practice specifically for contract managers in the Western Australian Local Government context.

This practical training is designed for procurement practitioners and those who have contract management responsibilities, and would like to improve their understanding and practice.

**Full course details and flyer are available at [www.walga.training.com.au](http://www.walga.training.com.au), or for further information email [training@walga.asn.au](mailto:training@walga.asn.au) or call 9213 2098.**
